

Model 825 Overflow Sight

Kaydon Model 825 Overflow Sights are designed for convenient observation of liquid flow and are extremely practical for maintaining a desired or fixed level of liquid circulating in a system. The metal top has a 1/2" NPT vent connection to connect into the reservoir above the maximum liquid level for vacuum operating systems. Kaydon Model 825 Safety Overflow Sights are installed as an accessory item for off-line (kidney-loop) oil filtration and conditioning systems. The heavy-duty glass tube withstands high pressure, and the stainless steel body ensures long-term reliability in industrial applications.

Features

- Simple, straight-forward design
- Clear glass viewing walls
- Metal top and 1/2" NPT connection
- Heavy-duty cast-iron construction

TYPICAL MODEL 825 OVERFLOW SIGHT INSTALLATION
